

Lena Cherchenko

ISTQB CERTIFIED QA ENGINEER | MANUAL & AUTOMATION

Zurich, Switzerland | Swiss C Permit

lenazurich@gmail.com +41 76 588 66 45 linkedin.com/in/lena-ch

PROFESSIONAL SUMMARY

QA Engineer with 5+ years of commercial experience in manual and automated testing of web applications, APIs, backend services and integrations, including 4+ years of hands-on test automation. Experienced with Playwright, TypeScript, test framework design, microservices and CI/CD.

SKILLS

Automation

Playwright, TypeScript/JavaScript, UI & API automation

API & Backend

REST API, API contracts, authentication, microservices, integrations, Postman, Swagger/OpenAPI

Framework Design

Page Objects, custom fixtures, reusable utilities, test data setup and cleanup

CI/CD

GitHub Actions, TeamCity, Git

Manual Testing

Exploratory, regression, integration testing; requirements & risk analysis; test design

Observability & Reporting

Kibana/Elasticsearch, Grafana/Loki, TestRail, Allure

Additional Stack

Selenium, Java, TestNG, Axios

TECHNICAL PORTFOLIO

Playwright Automation Framework

Personal UI, API and security automation framework built for the OWASP Juice Shop public demo application.

Playwright · TypeScript · AJV · GitHub Actions · Allure · Qase

CERTIFICATIONS

ISTQB Certified Tester Foundation Level (CTFL)

EDUCATION

Master's degree in Business Informatics — National Economic University, Kyiv, 2002

RELEVANT TRAINING

Selenium/TestNG (Java); performance testing (JMeter).

LANGUAGES

English — B2; German — B2; Russian — Native; Ukrainian — Native

WORK EXPERIENCE

airSlate Inc. 2020–2025

Product B2B SaaS platform · USA / Ukraine · Remote

Automation QA Engineer 2023–2025

Promoted from Manual QA Engineer after a technical review

- Developed and maintained UI and API automated tests using Playwright and TypeScript, covering 50+ backend endpoints and creating 150+ end-to-end tests across API and UI layers.
- Contributed to maintaining a shared automation suite of 500+ tests.
- Built reusable automation infrastructure with helpers, fixtures and test data flows; configured GitHub Actions for scheduled and on-demand execution.
- Defined automation coverage based on release risks, business priorities and regression value.
- Validated backend microservices and integrations with Salesforce, NetSuite, Google and Microsoft, including API contracts, authentication and error handling.

Manual QA Engineer 2020–2023

- Performed manual web, API and integration testing; analyzed requirements, service dependencies and integration risks in a microservices environment.
- Implemented automated API coverage for a backend system with 30+ API routes; built reusable API clients for test data setup, validation and cleanup.
- Investigated defects using Kibana and collaborated with backend teams to localize issues; used TeamCity for test environment setup.
- Participated in release testing and prepared QA release notes; maintained test cases, plans and checklists in TestRail and Allure.
- Tested Stripe-based payment flows, including subscriptions, billing cycles, refunds, failed transactions and error handling.

Freelance Software Tester 2020–2021

test IO & uTest · Global, Remote

Performed exploratory, regression and cross-platform testing of web and mobile applications; executed test scenarios and investigated issues using ADB, Postman, SOAP UI and debugging tools.

QA Intern 2020–2021

QA Light · Ukraine

Designed and documented test cases, tracked requirement coverage and reported defects in Jira.

Additional Experience

Risk Manager, 2006–2010; System Administrator, 2002–2003 — banking and leasing companies, Ukraine.
